

# Morning Star Ministries Update January 2017

Dear Friends,

The end of November and December was a blessed time with lots of celebration.

On November 30<sup>th</sup> we celebrated the first birthdays of our miracle twins Anand (joy) and Ashish (blessing). Shortly after they were born Anand developed liver problems which threatened his life, but after surgery, prayer and much tender care he pulled through and is now thriving. So much so, that now we are unable to tell the

difference between him and his brother.

It was lovely to have all our children back home for Christmas from their various study courses. The highlight of Christmas was the Nativity performed by our younger children on Christmas eve. We had between 150 and 200 in the church that night and all heard the good news of the birth of the one who came to save us from our sins.

Then, on Christmas day we had an estimated 500 guests for our church service and lunch afterwards. Again, all heard the gospel.

The children each received a winter outfit thanks to the generosity of some local doctors and their families, and a few days after Christmas we took our children and staff to a local restaurant for pizza thanks to a generous donor in England.

## Health Issues

Surjit.....is back in Hospital for treatment of a pressure sore, please pray he will soon be healed.

Kulvir Ram (pictured with his wife and children) has localised cancer and has just completed his first cycle of chemotherapy. He will need at least two more cycles and then probably surgery. His chemo is being funded by a friend in England but we will require extra support for his surgery. If you feel this is something you could help with then please contact us. He and his family have all come to faith in Christ and will be baptised soon.

Sanaz is five years old but due to some fitting episodes two years ago she has a mental development age of one and a half. Her parents brought her to us a few months ago and we took her for neurological tests, these show cerebral atrophy. Hopefully this is not progressive and therapy to stimulate her learning will help her make progress. So she has joined our infants' class where we believe she will make steps forward. Her three sisters and brother have also joined our day school. Please pray that Sanaz will make good progress and her siblings will settle into school.

Thank you for your continued support.

with love in Jesus' name,

*All at Morning Star*
